Insights & Recommendations

Marketing Channel

- Research further - Leads with an Unknown source have the best conversion rate.
- Main Growth Engines - Paid search & Organic search, due to high volume and conversion rate.
- Showing Potential - Direct Traffic & Referral, ~ Avg conversion rate but lower volume.
- Exposure - Social has good exposure, but below Avg conversion rate.
- Underperformers - Email, Display & Others - Minimize invest.

Lead Generation & Conversion Trends

- Positive Trend - All Channels grew significantly in Leads, Conversions & Conversion Rate during January 2018.
- Did our Marketing Campaign during this time period increased our brand exposure?
- Negative Trend - December 2017 had a dip in Total Leads, although it was the first month with converted leads.
- 2017 had no conversions - Failed marketing campaign?

Client's Business Profile

- Over half of converted leads come from **Top 6 business segments**.
- **Reseller** is the **main business type** of our converted leads.
- There is not enough data for non-converted leads, especially in the client's business profile columns.
- **Improve data collection process** from first contact for better analysis.

Revenue Data

- This dataset doesn't have any revenue data in order to calculate some key metrics such as Cost Per Lead/ Customer.
- Revenue data is needed for further analysis and **improvement of the marketing strategies and costs**.
